

PEXIP VIRTUAL MEETINGROOM—QUICKSTART MOBILE

Participate and create online meetings

Congratulations with your own personal online meetingroom. Here you can, just as a regular meetingroom, talk and collaborate with people that are there. The location looks like this; <https://pexip.me/meet/42650202>.

1

Prepare

Download the [Pexip \(My Meeting Video\)](#) app for your device. After installation login with your credentials .

All major platforms are supported. Choose the one you need. If you don't want or cant use an app, refer to the 'Quickstart Web'

2

Participate

Open the link that you've received in the e-mail invite (example); <https://pexip.me/meet/42650202>

Choose 'Join with app' on the invite page.

3

Invite

From the meetings menu choose share link (choose any option you prefer to share). Now just choose a date and time and invite as usual (Outlook or eq.)

PEXIP VIRTUAL MEETINGROOM—QUICKSTART WEB

Participate and create online meetings

Congratulations with your own personal online meetingroom. Here you can, just as a regular meetingroom, talk and collaborate with people that are there. The location looks like this; <https://pexip.me/meet/42650202>.

1

Prepare

Browse to <https://pexip.me/meet> and login with your credentials .

For the best experience use Google Chrome.

Note: we recommend this option for desktop/laptop use only. When using a mobile device use the app.

2

Participate

Open the link that you've received in the e-mail invite (example); <https://pexip.me/meet/42650202>

Click 'Join through browser' to access the meeting. If you're a guest, enter your name.

3

Invite

In the app and webversion easily create your own meeting. On the top of your screen find the 'Room Link' button.

Dirk Stevens's VMR
dstevens.vmr@pexip.kinly.com

Click the button. Now simply share the link in a regular invite like outlook.

If you use Outlook as your primary scheduling software; install the [plugin](#) for the best experience.
